FEATURED ACTUARIAL SCIENCE INTERN

Year: Sophomore **Location:** Philadelphia, PA
Major: Actuarial Science **Position:** Actuarial Retirement/
Pension Benefits Assistant

Job Description: I was responsible for benefit calculations, valuation reports and the government forms that went along with them. I also had some exposure to health and welfare plans, which mostly consisted of putting together reports and performing audits.

Pros: I worked with a small firm and that is what I appreciated the most about my internship. I was able to gain exposure to all of the functions of the company. I was able to work very closely with all of the senior consultants and even join the President/CEO in some meetings.

Advice: The volumes of experience that I was able to gain from Gamma reinforced my ability to maintain high levels of performance

Send a profile of your internship experience to:
