Attention: Last Wednesday Meeting

This Wednesday, April 6, 2016 will be our last Wednesday Meeting of the semester. As this is our last meeting, we have invited members from Brave Hearts for Strong Minds, as well as this years' recipient family to present them with our donation check. We will also be honoring May 2016 graduates and taking a group photo! This will be a great celebration for students and for our largest donation total yet, so please do not miss our final meeting!

Actuarial Science Workshop: Advanced Excel Training

Friday, April 8, 2016, 12:00 PM- 12:50 PM, Alter Hall Room 033

After learning some basic functions in the basic excel training workshop, our officers are ready to amp it up a notch by taking you through a real world project using excel. This workshop will bring in more complex excel functions used by actuaries in the field, while giving you a sense of the work you could potentially be doing in your future internships and jobs. All are encouraged to attend this workshop as it will be a vital addition to your excel training.

RMI Workshop: Professional Designations

Friday, April 8, 2016, 12:00 PM- 12:50 PM, Alter Hall Auditorium 031

The CPCU and CEBS designations are two of the most popular and well-regarded designations in the insurance industry. During workshop, students will learn what each designation is, as well as the process of examinations to obtain these titles. Students will also hear firsthand from students who have passed some of these exams.

VBA Training with Canada Life Reinsurance

Monday, April 4, 2016, 4:00 PM-5:30 PM, Alter 748

Coding is a skill that can enhance the productivity and value of any actuary. Whether working with complex actuarial models or solving problems in spreadsheets, the ability to program automated solutions can expedite and expand an actuary's functionality. This workshop will serve to inform the student about the value of coding for actuaries and introduce them to the basic skills used in actuarial coding. This workshop will review a real world problem and work through a solution using VBA for excel. This workshop will be led by Michael Mulcahy, FSA, MAAA, who is Vice President of Marketing at Canada Life Reinsurance.
